ذرا نم ہو تو یہ مٹی بڑی زرخیز ہے ساقی

Sir Allama Muhammad Iqbal
National Poet of Pakistan

May Allah Almighty, grant me
and my family the courage
to serve humanity with all
He has blessed me.

Mian Mohammad Sharif

Founder Chairman Sharif Trust and Ittefaq Hospital Trust

SHARIF MEDICAL & DENTAL COLLEGE

MISSION STATEMENT

Sharif Trust is committed to provide latest medical education to its students by inculcating professional knowledge, skills and responsibility along with ethical values into their personalities with the aim of preparing them as modern physicians having the initiative to act as future leaders in medicine.

Self-reliant, empathetic and diligent youth shall be a vanguard in our journey leading to national integrity, prosperity and sovereignty.

Muhammad Nawaz Sharif

Chairman Sharif Trust and Ittefaq Hospital Trust

FROM THE CHAIRMAN

Sharif Medical and Dental College, Lahore is located in the outskirts of the city, with a state of the art tertiary care facility, Sharif Medical City Hospital. The Institute has highly qualified faculty, who excel in their practice and clinical abilities. The institution promises an enriching, exciting and fulfilling experience for its students and trainees.

Medical career at a good medical institution is the choice and desire of the aspiring applicants to an institution. The practice of medicine is a very demanding field and is not just a career, but a profession having multiple foci to attend to. It is a process of evolution of personalities and training of the budding doctors, based on integrated and interdisciplinary teaching. The medical doctors are expected to thread their clinical practice with good communication skills, critical thinking, medical ethics with special emphasis on research and teaching skills.

Medical students are advised to acquire knowledge designed to foster excellence giving due to its ethical perspective to serve the ailing diligently. Additional responsibility on future healers is to keep abreast with latest advances in medical education. It is expected of them to be familiar with the art of effective teamwork with vital and complementary role of paramedics, nurses, social worker and physiotherapists.

My advice to the faculty and the administrative staff at Sharif Medical and Dental College, Lahore is to design and educational program that would prepare future leaders in medicine with focus not merely on

transfer of technical skills and knowledge to the students but also on inculcating the values of empathy & being humane into their personalities.

Muhammad Nawaz Sharif

We are committed to provide the best medical education following the latest trends, with the aim of making them professionally competent and humane. We value the dignity of the people whom we teach and serve.

Muhammad Shehbaz Sharif

Dr. Muhammad Adnan Khan
Chief Executive, Sharif Medical City

SHARIF TRUST

Sharif Trust was founded by Late Mian Mohammad Sharif, a philanthropist and an industrial conglomerate, who was blessed with an ability to run enterprises effectively. His first project was launched in the steel industry in 1937 as Sharif Group. He migrated to Lahore, Pakistan during partition of Indian Subcontinent in 1947 and had to start his business once again. The group emerged, in a short period of time, as a leading group in the steel, textile and sugar sectors of Pakistan.

In addition to his concerns for the sprouting industry in Pakistan, he had immense desire to establish and sponsor welfare projects for the under privileged class of the country. He owed the origin of this desire to an impulse which got triggered when he encountered heart ailment and experienced lack of medical expertise in the country at that time. The first significant step in this direction led to the birth of Ittefaq Hospital (1986), which presently in addition to having an adequate number of charity beds has a fairly large benevolent fund to draw upon. His vision in fact was to establish a series of such hospitals in the rural surroundings. He established Sharif Trust (1995), which received additional contributions from this family members. Main objective of this trust is to establish and maintain educational and medical institutions. The Sharif Trust is managed by a board of trustees and is chaired by Mr. Muhammad Nawaz Sharif.

Board of Trustees

Mian Mohammad Sharif (Late) -Founder Chairman
Mrs. Shamim Akhtar (Late) -Author
Mr. Muhammad Nawaz Sharif - Chairman
Mr. Muhammad Shehbaz Sharif - Author
Mr. Muhammad Abbas Sharif (Late) - Author
Mrs. Kalsoom Nawaz Sharif (Late)
Mrs. Nusrat Shehbaz
Mrs. Sabiha Abbas
Mrs. Kausar Yousaf
Mr. Hussain Nawaz Sharif
Mrs. Maryam Nawaz Sharif
Mr. Hamza Shehbaz Sharif
Mrs. Ayesha Haroon
Capt. (R) Muhammad Safdar

Recommendations of the board are mandatory for running of the Institutions of the Trust. The contributions of Sharif Trust towards general, technical and professional medical education and health delivery system are immense and still growing to encompass the needs of our population.

SHARIF MEDICAL & DENTAL COLLEGE, LAHORE

Sharif Medical and Dental College is an Institution under the umbrella of Sharif Trust with its academic campus in the Sharif Medical City, located in the south west of Lahore at Jati Umra, Sharif Medical City Road. This location is in a clean and peaceful setting on the bank of canal. This location was chosen by the founder Chairman to provide impetus to development of this area. The campus is spread over an area of 671 kanals.

Following on campus facilities are available:

- Residences for doctors, nurses and paramedics
- Student Hostels
- Mosque
- Cafeteria
- Bank
- General store
- Stationery shop
- Laundry
- Pharmacy
- Sports grounds
- Park
- Transport

Professional Training Program

Sharif Medical and Dental College offers two professional training programs

- i. Five-year degree program for MBBS
- ii. Four-year degree program for BDS

PMDC Recommendation & Federal Government Approval

After receiving recommendations of Pakistan Medical and Dental Council (PF.12-F-2008 (Sharif)/97468 & PF.12-F-2008 (Sharif)/97470); the Ministry of Health, Government of Pakistan approved this college vide notification no. F.3- 10/2007-MER dated 16th August 2008, to impart training to MBBS and BDS degrees to the Medical and Dental students. The Ministry of Health has further notified inclusion of both degrees of MBBS and BDS obtained from this College in schedules I and V of PMDC ordinance 1962 as recognized medical and dental qualifications under the University of Health Sciences.

Affiliation with University

The college is affiliated with University of Health Sciences, Lahore in pursuance of University of Health Sciences ordinance 2002 (Ord. No. LVIII of 2002) vide notification no. UHS/Registration/127- 08/1010 dated 25 August 2008.

Enlistment in FAIMER (Foundation for Advancement of International Medical Education & Research)

Sharif Medical and Dental College, Lahore is enlisted in the International Medical Education Directory (IMED), FAIMER. www.imed.faimer.org.

Accreditation by CPSP and UHS

The Institution is accredited by College of Physicians & Surgeon Pakistan, Karachi for postgraduate training in Gynecology & Obstetrics, Surgery, Orthopaedics, Paediatrics, General Medicine, Dermatology, Anesthesia, Nephrology, Radiology, Oral and Maxillofacial Surgery, Orthodontics, Ophthalmology Histopathology, Neurosurgery, Urology, Community

Medicine, ENT and Neurology. The Departments of Orthopaedics, Urology, Anesthesia, General Surgery and Nephrology are accredited for MS/MD and the Department of Anatomy is accredited for M. Phil Anatomy by the University of Health Sciences, Lahore.

Sharif Medical Research Centre (SMRC)

SMRC is working under the supervision of Chief Executive, Sharif Medical City, Dr. Muhammad Adnan Khan. SMRC is committed to contribute to quality research at National and International level by providing a conducive and supportive field for researchers to work upon. The aim of SMRC is to inculcate and promote research culture among the undergraduate and post graduate trainees & faculty ensuring authentic and evidence based results.

Journal of Sharif Medical and Dental College (JSMDC)

Journal of Sharif Medical and Dental College was published for the first time in 2015. It is a biannual peer-reviewed scientific journal. JSMDC has published 19 issues so far. The Editorial Board of the journal is headed by the Chief Executive, Sharif Medical City, Dr. Muhammad Adnan Khan and comprises of reputed National and International members.

Teaching Faculty

The faculty comprises highly qualified, competent and devoted professionals, who are committed to provide quality medical education. The faculty is provided opportunities to regular training programs and workshops/seminars to keep themselves abreast with the latest trends and developments in medical education. The instructional strategy provides faculty members the role of group leaders and facilitators rather than being a simple source of one way knowledge. Emphasis is on active learning and interactive teaching techniques for effective learning. Future plans include establishment of a teacher training center at the campus to facilitate excellence to existing teaching/learning. An interdisciplinary double helix curriculum is ready for use in future.

Special Features

The medical students visit the underprivileged communities of Raiwind and its suburbs as a part of the Institutions' outreach program. The program is organized and conducted in collaboration with clinical departments. It provides an exposure of issues faced by non-affording patients and provides an opportunity to practice and polish their skills of empathy and medical ethics. A number of doctors,

nurses and para medical staff live on the premises to provide round the clock medical care. Teaching and training sessions are regularly conducted to update the staff and to keep them abreast with ongoing developments in medical sciences.

Admission Requirements

The admission is strictly based on merit as per PMDC regulations and UHS criteria.

Co-curricular Programs

Co-curricular activities are planned at the beginning of each session and are held throughout the year. These activities begin with Welcome party for first year followed by annual activities like sports, funfair and debates. The college provides ample opportunity to its students to polish their hidden co-curricular talents.

The sports activities are organized by the Sports club. The various notified sport clubs are table tennis, hockey, football and cricket.

Student Mentorship Program

The student mentorship program works under DMECS to help students both in academic and non-academic areas to facilitate their performance and progress during their stay in college. This system aims to help them in their personal and professional development. Each group is supervised by notified mentor throughout the sessions. A student once placed in a mentorship group remains in that group till his/her exit from the College. These sessions are held regularly on the second Saturday of every month. The objective is to keep the faculty and students in touch with each other in order to promote mutual understanding. Each mentor pays personal attention to difficulties/concerns of students individually and collectively. The reports of session are collected and summarized for rectification of highlighted concerns of students.

Students Alumni

Graduates of Sharif Medical and Dental College initiated their alumni, in 2012. This forum provides an opportunity to the graduating students to give back to their alma mater and community. SGALUM facilitates the alumni to stay in touch with each other and the institution to enhance professional and academic opportunities. It is a platform for the young, enthusiastic physicians for a regular charity work, information regarding job placements and career guidance.

Maintenance of Academic Standards

Academic standards are continuously monitored by the faculty members, Curriculum Committee, Academic Audit Committee and Quality Enhancement Cell. In the event of a default or failure, appropriate action to improve students' performance is initiated by intimating the parents/guardians.

Academic standards are linked to successful completion of graduation requirements i.e. 75% attendance in all theory and practical classes, passing of all internal class test and professional examinations securing 50% marks in each subject and demonstration of necessary ethical and professional qualities.

If a student fails in the supplementary University Examination, he/she is detained in the class to repeat the course of studies.

Discipline

All academic deficiencies and reports of professional misconduct by the students are forwarded to the Disciplinary Committee, which comprises of members from the College Academic council. Following a reported incident, meeting of Disciplinary Committee is held for a detailed review and discussion. Subsequent recommendations are made by the committee. Parents/Guardian of the concerned students are intimated. The disciplinary actions taken as per recommendation of the committee include:

- i. Letter of advice/warning to the student
- ii. Placing the student on probation for a recommended period with remedial measures.
- iii. Disciplinary punishment, which may include imposition of fine, suspension or rustication from the college roll.

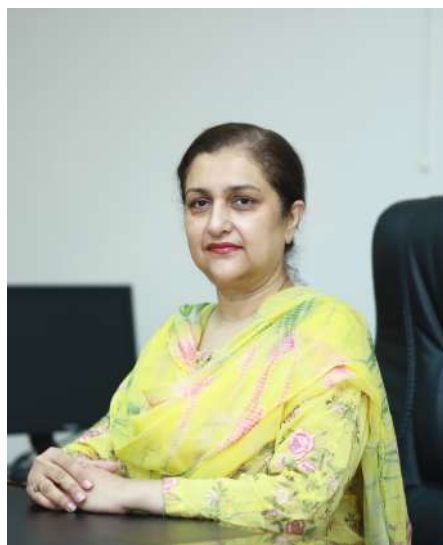

CONVOCATION

The Convocation 2024 of Sharif Medical and Dental College and Sharif College of Nursing was held on February 24, 2024. The ceremony was graced by former Prime Minister Mr. Muhammad Nawaz Sharif, Prime Minister Mr. Muhammad Shehbaz Sharif, and Chief Minister of Punjab Mrs. Maryam Nawaz Sharif. A large gathering of students, parents, and dignitaries attended the event, where gold and silver medals were awarded to outstanding medical, dental, and nursing students for their academic excellence in professional examinations.

SHARIF MEDICAL & DENTAL COLLEGE

PRINCIPAL

Prof. Nausheen Raza
MBBS, M.Phil

Graduated from Fatima Jinnah Medical College Lahore in 1989. Joined government service in Anatomy Department, Allama Iqbal Medical College and served public sector for fourteen years. She joined Private sector in 2002 and is working here since then.

As Principal, Sharif Medical and Dental College she looks after the students' academic, co-curricular activities and other college related matters.

VICE PRINCIPAL

Prof. Muhammad Tahir Saeed
MBBS, DCP, M.Phil

Graduated from Nishtar Medical College Multan in 1995. He did DCP in 1999 and M.Phil in 2010 from University of Health Sciences. He joined Sharif Medical & Dental College in 2010.

As Vice Principal he supervises the working of College Secretariat and issues guidelines in students academic and examination matters. He also deals with matters pertaining to students and faculty registration.

DEPARTMENT OF ANATOMY

Prof. Nausheen Raza (MBBS, M.Phil) is Head, Department of Anatomy. She has vast experience of teaching the subject to both undergraduates and post graduate students for over 34 years. She has been a facilitator for various basic medical science postgraduate courses. She received training in workshop series for Master Trainers in Medical Education from the UHS, Lahore, which is in addition to attending various other training workshops on Medical Education. Presently her Masters in Health Profession Education is underway.

The department is well supported by highly qualified and committed faculty as per PMDC requirements.

The department has a spacious dissection hall with human cadaveric dissection and demonstration stations for students; supported by a mortuary having two mortuary plants and a well equipped specimen preparation and storage room.

There is a spacious histology laboratory having requisite equipment for tissue processing and slide preparation in addition to binocular, multi head and research microscopes. The histology slide bank has a vast collection of microscopic slides of human and animal tissues. Students have free access to this bank.

State of the art anatomy museum has more than 267 prepared specimens from human organs and tissues and over 40 models in display. Additional teaching material includes charts, torsos and human skeletons. Departmental bone bank has over 2600 human and 50 plastinated bones which are issued to the students for study purpose.

DEPARTMENT OF BIOCHEMISTRY

The objective of biochemistry department is to understand the scientific basis of human life processes at cellular to molecular level and the application of basic knowledge of biochemistry in understanding the clinical problems.

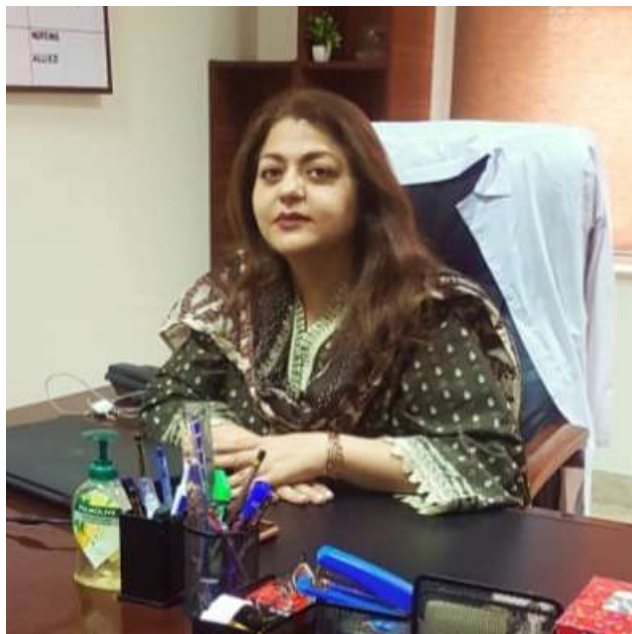

The well experienced qualified teaching faculty of biochemistry department is headed by Prof. Samra Hafeez (MBBS, M.Phil). The departmental laboratory is equipped with all essential advanced instruments for performance of practical of undergraduate medical and dental students. The department has computer facility and internet access. The departmental team work hard to provide education not only to acquire knowledge of subject but also to guide the students to strive towards competence.

DEPARTMENT OF PHYSIOLOGY

Prof. Ghazal Mansoor (MBBS, M.Phil) is Head, Department of Physiology. The department has well experienced faculty as per requirement.

The departmental laboratory is well equipped and is maintained by experienced technical staff working under the supervision of well qualified faculty. Its associated preparation room has all necessary features for assisting practical training of students in the laboratory.

DEPARTMENT OF PATHOLOGY

The faculty of the Department of Pathology is continuously striving to achieve academic excellence and improvement in human health. The Department of Pathology is involved in teaching of undergraduate students of MBBS, BDS, Nursing & Allied Health Sciences. The department is headed by Prof. Maria Aslam (MBBS, M. Phil, CHPE, CME) and is supported by qualified and dedicated faculty members. The department has well equipped student's laboratories, museum with more than 267 specimens revealing pathological aspects of various diseases, hospital laboratory and Blood bank.

The Pathology Laboratory performs a complete array of routine as well as specialized investigations. It has fully equipped histopathology, hematology, microbiology, and chemical pathology laboratories. It caters to the needs of patients of Sharif medical city and the catchment area through its collection points. It is providing 24/7, 365 days a year laboratory services to indoor & outdoor patients. A team of qualified and dedicated faculty and technical staff is committed to keeping the standards of the laboratory.

DEPARTMENT OF FORENSIC MEDICINE

Dr. Farah Hanif (MBBS, DMJ) is Head, Department of Forensic Medicine. She has a teaching experience of more than 26 years.

The department has well equipped laboratory and its museum houses numerous models, specimens, mountings, charts, skeletons and X-rays highlighting various medico-legal aspects essential for medical student's learning to keep them abreast with advanced techniques in the subject. The arrangement of postmortem examination in Lahore is centralized by Government of the Punjab at King Edward Medical University and our medical students are sent there in batches for this aspect of medico-legal training.

DEPARTMENT OF PHARMACOLOGY

Prof. Salman Bakhtair (MBBS, M.Phil) is Head, Department of Pharmacology. The subject of pharmacology is considered a bridge between the pre-clinical and clinical years of a medical student. A good physician must possess a thorough knowledge of the subject as the treatment outcomes, among other factors, depend on the correct choice of prescription drugs.

Sharif Medical and Dental College, Lahore has a robust Pharmacology Department with experienced and well qualified faculty, well equipped laboratories, Lecture hall, tutorial rooms for small group discussions and an animal house to cater for the academic needs of the present day medical student.

The recommended syllabus of the subject as prescribed by the University of Health Sciences, Lahore is followed in true letter and spirit both in theory as well as in the practical work. The department takes pride in making extra efforts to produce medical students with sound knowledge of the subject of pharmacology by designing a training program which is intensive and at the same time interesting for the young minds.

DEPARTMENT OF COMMUNITY MEDICINE

Prof. Muhammad Shahid Iqbal (MBBS, DCH, MCPS, FCPS) is Head, Department of Community Medicine. He is an experienced teacher and has headed community medicine departments of various medical colleges.

The department is engaged in imparting knowledge and skills to the medical students regarding the preventive, social, public and community health. This enables them to learn, apply and provide preventive, curative and rehabilitative services to the ailing community. The departmental museum has requisite models and specimens for student learning and its laboratory is well equipped for students' practical demonstrations under the supervision of experienced faculty health professionals. The regular field visits notified in the time-table is an important feature of the subject curriculum.

DEPARTMENT OF ENT

Dr. Ahmed Rohail (MBBS, FCPS) is Head, Department of ENT. The department is well equipped with both outpatient and inpatient facilities. The department is also accredited for FCPS training by CPSP. All kind of procedures e.g. tonsillectomy, adenoidectomy, nasal endoscopies, audiometry, etc. are performed regularly in the department. It is supported with a well equipped operation theater. We focus continuously on improving the quality of teaching and patient care. Teaching of the undergraduate students is facilitated by faculty from Ittefaq Hospital Trust.

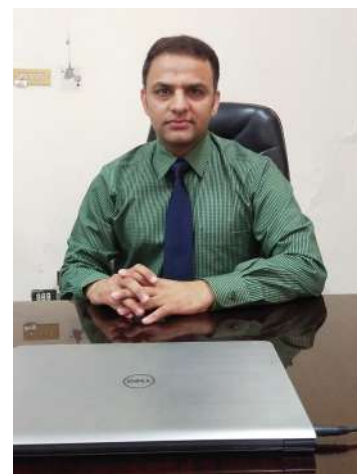

DEPARTMENT OF OPHTHALMOLOGY

Dr Faisal Anwar (MBBS, MS) is Head, Department of Ophthalmology. The Department of Ophthalmology is supported by well experienced and qualified faculty to train the undergraduate medical students and post graduate residents.

The department is well equipped to perform routine eye operations and procedures like phacoemulsification for small incision cataract surgery, vitrectomy for posterior segment surgery, laser YAG for capsulotomy and Argon laser for diabetic retinopathy. The Department of Ophthalmology successfully performed its first corneal transplant in April 2016 and is providing these services on regular basis.

Ophthalmology department has a state of the art operation theatre, well equipped with latest instruments. It is accredited by College of Physicians and Surgeons Pakistan for FCPS and MCPS training in Ophthalmology.

DEPARTMENT OF MEDICINE

Prof. Ayub Latif Khawaja (MBBS, MRCP) is Head, Department of Medicine and Chairperson Medicine & Allied specialities.

Department of Medicine is a highly specialized unit with well established sub specialties of Nephrology, Cardiology, Dermatology and Psychiatry which have a proficient working for provision of student training and patient care.

Department offers postgraduate training in FCPS. The department has six days a week OPD, size consultant clinics, male and female general wards. It also provides facilities of round the clock emergency cover and a well equipped medical ICU with trained staff.

DEPARTMENT OF SURGERY

Prof. Muhammad Mohsin Gillani (MBBS, FCPS, FACS, Fellow of Advanced Laparoscopic Obesity Surgery) is Head, Department of Surgery and Chairman Surgery & Allied specialties. The Department of General Surgery has well qualified, skillful, and experienced team of Surgeons. It provides teaching and training to both undergraduate and postgraduate students.

The department ensures continuous high-quality patient care in emergency, outdoor and indoor. It has well-equipped operation theaters, surgical ward, and ICU. Sharif Centre for Advanced Laparoscopic Surgery (SCALS) is providing facilities for a variety of advanced laparoscopic surgeries of Gynaecology, Urology, and cancer surgeries. Sharif Medical City Hospital has started state of the art Specialized Surgery Center for Obesity & Diabetes (SSCOD). A team of well-trained, highly qualified, experienced Laparoscopic and Bariatric Surgeons are performing these procedures with a high success rate.

DEPARTMENT OF GYNAECOLOGY & OBSTETRICS

The department is headed by Prof. Maimoona Hafeez (MBBS, FCPS, FIMSA). It is a well established department having inpatient and outpatient facilities, operation theatres with pre and post operative area and labour room. The department has all the equipment to perform all kind of minor and major surgeries and has the full capability of performing endoscopic surgeries, advanced and complicated gynecological surgeries for malignancies. Management of infertility, high risk pregnancies and well women clinic including adolescent and geriatric problems in females. It is a tertiary care referral centre. The department is recognized by CPSP for post graduate training program and many postgraduate trainees are being supervised here. Well qualified and experienced teaching faculty manages the undergraduate curriculum and training.

DEPARTMENT OF PAEDIATRICS AND NEONATOLOGY

Prof. Humayun Iqbal Khan (MBBS, FCPS, FCPS (BD), CMT, Fellowship in Pediatric Hematology/Oncology) is Head, Department Paediatrics and Neonatology.

He has a vast teaching and research experience to his credit. Under his supervision, well qualified and experienced requisite faculty is working to train and teach medical students.

The Department of Paediatrics and Neonatology has 38 beds in pediatric ward. There is 22 bedded neonatal unit which is well equipped with all gadgets including incubators, ventilators and cardiac monitors.

The department also provides 24 hours emergency services for Pediatric and neonatal patients in addition to outpatient department.

DEPARTMENT OF NEUROSCIENCES

Prof. Imran Altaf (MBBS, MS Neurosurgery) is the Head of Department of Neurosciences. Department has organized inpatient and outpatient sections. The unit is well equipped with facilities to perform all kinds of minor and major neurosurgical operations. He has over 10 years specialty and teaching experience. He has a number of research publications to his credit and has attended many workshops and conferences related to his specialty. The department is accredited for post graduate training in FCPS Neurosurgery.

DEPARTMENT OF PSYCHIATRY

Dr. Ayaz M. Khan (MBBS, MD, FCPS) is Head, Department of Psychiatry. The department is engaged in teaching Behavioural Sciences and Psychiatry to undergraduate medical and dental students. It provides outpatient consultations and inpatient facilities to patients suffering from various mental illnesses. We are also supported by clinical psychologist for psycho-social aspect of behavioural science.

DEPARTMENT OF ORTHOPAEDICS

Prof. Farooq Azam Khan [MBBS, FCPS Orth, FACS (US), MRCPS (Glasg.)] is Head of Department of Orthopedic Surgery. The department of Orthopaedic surgery is providing state of the art care to the patients. It has a team expert in the management of adult and pediatric trauma, spine, sports injuries, tumor surgery and advanced joint replacement surgeries utilizing the modern equipment and latest technology. The department also takes pride in arranging Annual World Osteoporosis Day camp for the local community since 2014, under the banner of Sharif Osteoporosis Society.

Sharif Orthopedic & Joint Replacement Center of Excellence is committed to provide best possible services of joint replacement to the patients at a cost effective rate and to promote research and advance training in joint replacement surgeries.

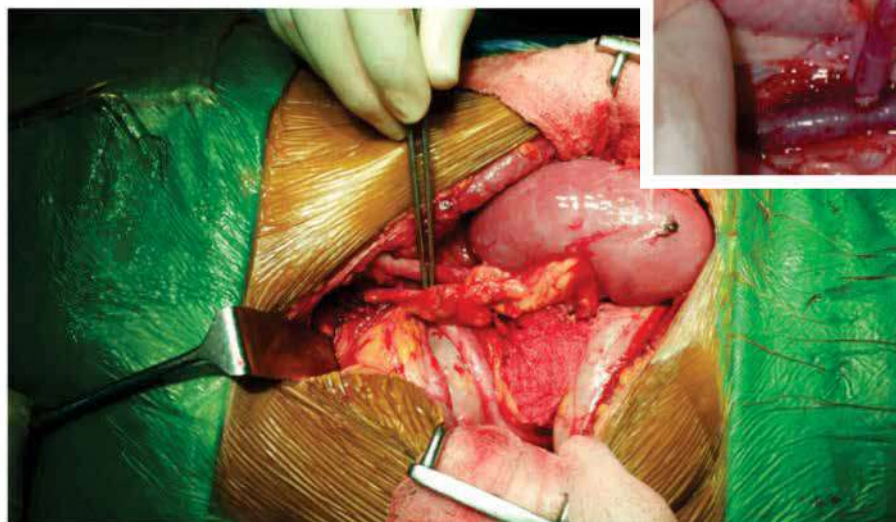

DEPARTMENT OF UROLOGY & RENAL TRANSPLANT SURGERY

Prof. Muhammad Rafiq Zaki (MBBS, MS) is Head, Department of Urology & Chairperson SIURT (Sharif Institute of Urology and Renal Transplant). He has extensive teaching and research experience to his credit. The department has organized seminars related to the specialty and has a well committed and experienced team of qualified consultants.

The department is performing all elective and emergency urological operations including specialized renal transplant surgery. It also offers surgical assistance in cases of urooncology, uro-gynaecology & paediatric urology.

The department is approved by Punjab Human Organ Transplant Association (PHOTA) for performing renal transplant procedures.

DEPARTMENT OF NEPHROLOGY

The department provides full scope of nephrology services including outpatient and inpatient service, hemodialysis, peritoneal dialysis, hemodialysis catheter placement, renal biopsy and ICU care. It has two dialysis units equipped with 18 state of art dialysis machines including dedicated machines for hepatitis B and C patients.

Free hemodialysis is provided to deserving patients while other patients get hemodialysis at reduced rate. In view of increasing incidence and rising cost of treatment of chronic kidney disease, special attention is paid to prevention and slowing down of progression of chronic kidney disease. In this regard screening camps are held monthly at hospital and surrounding communities to detect chronic kidney disease at an early stage in high risk patients.

The department is actively involved in teaching of undergraduate and postgraduate students. It is approved FCPS Nephrology.

DEPARTMENT OF DERMATOLOGY

Department of Dermatology was established in 2010 and headed by Prof. Uzma Ahsan (MCPS, FCPS, MHPE, Certificate American Association of Aesthetic Medicine, Diploma American Association of Aesthetic Medicine). The department provides outpatient and inpatient facilities for a variety of dermatological disorders. It is accredited for postgraduate training in FCPS Dermatology Pakistan. In addition, the department offers latest cosmetic and therapeutic procedures including mesotherapy, microneedling, PRP for hair, and acne scarring, chemical peeling for melasma and facial rejuvenation, laser hair removal, CO₂ resurfacing and hydrafacial along with fulgration,

electrocautery, intralesional injections and cryotherapy. We are facilitated with latest books and journals for a continuous improvement in patient care and clinical care.

DEPARTMENT OF RADIOLOGY

The department is headed by Prof. Tanveer Ahmad (MBBS, MCPS, FCPS). Department is actively involved in undergraduate and postgraduate training programs. Competent, experienced and well trained technicians work under qualified faculty in the specialty.

Department of radiology is a well equipped department having CT scan, MRI, OPG, ultrasound and X-ray facilities to cater for conventional and interventional radiology as per diagnostic requirements.

DEPARTMENT OF ANESTHESIOLOGY

Prof. Mazhar Iqbal (MBBS, FCPS) is Head, Department of Anesthesia. He has vast specialty experience in field of Anesthesia and critical care. The department has experienced and trained faculty and staff members, who are committed to providing high quality services to pre and post operative patients. It is a well established, fully equipped department with latest facilities to cater a wide range of anesthesia and intensive care facilities. The department is accredited for training in MCPS & FCPS Anesthesiology & Critical Care.

DEPARTMENT OF CARDIOLOGY

Dr. Maryam Ashraf (MBBS, FCPS) is Head, Department of Cardiology. This is a tertiary cardiac care centre matching international standards of operation. A team of cardiologists provides 24 hours emergency care to the patients. The center is equipped with the cardiac catheterization laboratory providing cardiac interventions. The centre also provides noninvasive cardiac facilities.

DEPARTMENT OF MEDICAL EDUCATION & CLINICAL SKILLS

The Department of Medical Education (DME) and Clinical Skills is headed by Dr. Uzma Shahid. The department ensures the implementation of a modern, outcome-based curriculum aligned with UHS standards. It facilitates faculty development, innovative teaching strategies, and continuous assessment to maintain excellence in medical education. It also continues to achieve excellence by adopting the innovative teaching & learning methodologies including PBL and C-FRC.

COLLEGE OF DENTISTRY

PRINCIPAL

Prof. Dr. Uzair Bin Akhtar (BDS, FCPS, MFD RCSI, CHPE, FICD) is the Principal, College of Dentistry.

College of the Dentistry provides state-of-the-art facilities for both the students and patients. The students are being taught by highly qualified academicians and clinicians. Teaching facilities, laboratories, pre-clinical & clinical areas, library, and IT center are designed in such a way that students are educated to be at their best. Departments of Prosthodontics, Oral & Maxillofacial Surgery, Orthodontics, Operative Dentistry, Periodontics, Peadodontics, Oral Diagnostic, and Community & Preventive Dentistry not only cater to student needs, but also manage the patient load effectively and efficiently with meticulous oral infection control measures. The institute is also recognized for postgraduate teaching and training in different specialties.

DEPARTMENT OF ORAL PATHOLOGY

Oral Pathology is one of the basic science subjects in dentistry, concerned with the scientific study of the cause and effect of oral diseases, an understanding of which is essential for diagnosis, and the development of a rationale for treatment planning and preventive program. The department is also involved in relevant research and clinical practice. It has promoted undergraduate research among the dental students.

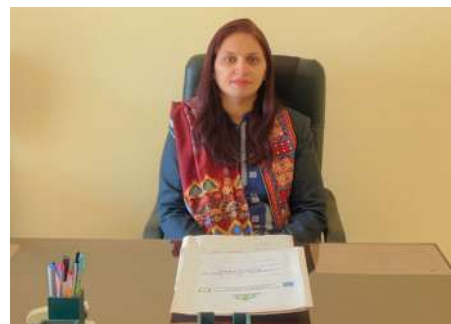

DEPARTMENT OF ORAL BIOLOGY

Dr. Sadia Rana (BDS, M.Phil) is Head, Department of Oral Biology. The department is committed to foster intellectual curiosity, excellence, and creative vision in the students and to prepare them as future leaders in the fields of academic dentistry and craniofacial research. The Department of Oral Biology at SMDC has an experienced teaching faculty that is challenged to develop new ways to disseminate knowledge that will encourage students to remain lifelong learners.

DEPARTMENT OF SCIENCE OF DENTAL MATERIALS

The department is headed by Dr. Nadia Irshad (BDS, M. Phil). The department is committed to prepare the undergraduate dental students to dental, biological, behavioral, biomedical and clinical aspects of dental/biomaterials on research and scholarships.
